Hazardous Materials Technicians are personnel who respond to the release of hazardous materials with the purpose of stopping the release and reducing losses. The goal of this 80-hour course is to bring personnel to the NFPA 472 Hazardous Materials First Responder Technician Training Level and will include all JPRs required by the State of Colorado. Colorado Division of Fire Prevention and Control certification opportunities will be offered as well upon completion of the course. Included will be tactical response information and/skills assessments encompassing:

- ⇒ Hazmat Chemistry
- ⇒ Information Sources
- ⇒ Respiratory Protection
- ⇒ Chemical Protective Clothing
- ⇒ Air Monitoring
- ⇒ Railroad Response and Operations
- ⇒ Highway Cargo Tanks, Non-Bulk and Intermodal Tanks
- ⇒ Confinement and Containment of Spills
- ⇒ Vapor Suppression
- ⇒ Incident Command System
- ⇒ Decontamination
- ⇒ Full-Scale customized response exercises

Classroom and hands-on time will be as evenly distributed as possible in order to take full advantage of every learning opportunity.
