Hazardous Materials Training Courses

Colorado Division of Fire Prevention & Control

2017

HAZMAT IQ: ABOVE THE LINE BELOW THE LINE

I Day Class (Eagle River Fire April 12 and Greeley Fire March 31)

The HazMatIQ system incorporates trademarked innovative street smart "Cheat Sheets" that enable responders to safely and efficiently respond to any known or unknown chemical or mixture. Students taking this course will be able to size-up (physical state, hazards, initial hot zone, correct meters and PPE) any chemical in minutes. The system then coaches responders through a streamlined chemical research method to verify their initial size-up, preparing responders to immediately go to work when they arrive on a Hazardous Materials/WMD event.

HAZMAT IQ: TOX MEDIC

I Day Class (Upper Pine River Fire April 1)

The HazMatIQ Tox-Medic® Course is a specialized EMS training program designed to give medics the knowledge and confidence required to provide advanced life support care including anti-dote administration, to patients suffering from a Hazmat/WMD exposure.

<u>Registering For?</u>	<u>Course</u>	<u>Location</u>	<u>Address</u>	<u>Dates</u>
<input type="checkbox"/>	HAZMAT IQ: Above the Line Below the Line	Eagle River Fire	2399 N Frontage Rd West Vail	April 12
