

2 Day Firefighter Rescue & Survival

Hands On Training

Captain Paul Capo and Cadre

Fri & Sat May 11 & 12, 2018

08:00 – 17:00

Hosted by the
Estes Valley Fire Protection District
\$150 with lunches provided

This dynamic 2-day hands-on course will consist of 1-day of Firefighter Rescue (RIT) techniques followed by 1-day of Firefighter Survival; all ending in a comprehensive scenario. It is not enough to be aware of the skills that are needed to be performed, true competency come from realistic hands-on training. In this high speed, When Things Go Bad training the student will learn; *assessment of a downed firefighter, air management, packaging, drags, window lifts, ladder carries, up/down stairs, hauling a firefighter, deploying in as a RIT team, roof removals, basement removals, wall breaching, the naked SCBA drill, reading couplings, MAYDAY transmission, disentanglement, reorientation techniques, headfirst ladder bailouts and rope slide.* After this course, the student will be confident in multiple situations in which to rescue themselves as well as other firefighters when the need arises.

About The Instructor:

Paul Capo has been a firefighter since 1996 and serves as the Training Captain with the Estes Valley Fire Protection District in Estes Park, Colorado. Paul Capo is the Founder of When Things Go Bad, Incorporated where he develops a vast compliment of firefighter curriculum and training. His diverse teaching includes, but not limited to, FDIC (Fire Department Instructors Conference), Fire House Expo, Orlando Fire Conference, Fire Rescue East, Wichita HOT, etc. where he trains on multiple subjects in fire service academia. Paul is considered by many to be one of the nation's leader's in the "new vanguard" of Firefighter Rescue / Rapid Intervention Crew capabilities. He and his crew can be seen regularly on Fire Engineering's Training Minutes as well as in the When Things Go Bad training DVD series. In addition, he frequently instructs and consults in areas of firefighter self preservation – the physiological changes during firefighter survival. Paul has achieved his B.A.S. in Public Safety Administration and instructs in all levels and topics of firefighting.
