Emergency Vehicle Driver Training – Instructor Level 2016 Update – Classroom

Justin M. Eberly, VFIS Education & Training Specialist

Emergency Vehicle Driver Training (EVDT) Program - Instructor Level Update – 2 hours

This course is designed to teach the instructional methodology to potential and existing instructors to deliver the student level program:

Driving is an ESO's most frequent and possibly the most serious risk they face. This is a comprehensive, updated EVDT program that will allow you and your organization the opportunity to improve the safety of your people out there on the road. VFIS has thousands of instructors in the field today that have taken the 2008 version of EVDT-I training. This training is a 2016 update for those instructors and is intended to provide updated additional information and materials to teach the newest edition of the EVDT-I training.

Audience: Training Officers and Chief Officers

Location:

**Adams County Fire Protection District
Training Center - 901 E. 68th Avenue, Denver, CO 80216**

Dates/Times:

**August 28, 2018
1:00 pm – 3:00 pm**

Registration & General Information:

- ❖ Program fee: There is no cost for VFIS Insureds
- ❖ Note: Participants must have completed the EVDT-I 2008 version
- ❖ Course date, time, and training site are subject to change
- ❖ Student level manuals and additional materials are available for purchase

**NOTE: This training program has been approved by Pinnacol Assurance to satisfy
ONE Colorado Emergency Safety Association Safety Group annual training requirement**
