FULL STRUCTURAL PPE/SCBA REQUIRED

A complacent attitude is the first step in a tragic calamity of errors that results in a fire extending beyond where it should have been controlled or preventable civilian or firefighter injuries and deaths. The scenarios discussed in this presentation will focus on the instructor's personal experiences at several near-miss fireground incidents showing how the presence or absence of a "combat ready" mindset positively or negatively influenced the outcome. Discussion and tips to include:

- Developing a "combat ready" attitude • Destroying complacency • Setup, layout, and use of PPE
- The Importance of Being "in position" • "Combat Ready" Firefighting Skills • Effective engine & Truck company Setups • Planning and equipment for RIT deployment • Pre-incident preparation for IC's
