ULFSRI: Dennis LeGear & BC Tony Carroll

"Impact of Fire Attack Utilizing Interior & Exterior Streams on Firefighter Safety & Occupant Survival."

Saturday March 23, 2019 0900-1700

AIMS Windsor Campus, 1120 Southgate Drive, Windsor, CO

This is the ONLY class being offered in the Western Region!

"Impact of Fire Attack"

From "Water Mapping" to "Air Entrainment" to the "Full Scale Burns"

There is very significant information to be captured from these studies.

This information will lead to better preservation of life and property by your agency if understood properly.

Using a series of videos and discussion with attendees the instructors will try to develop a base level of knowledge and understanding of the data from the report. This will lead to a greater ability to properly apply water on the fire ground from master stream to handline maximizing your

abilities as a professional fire service member to get the most out of your equipment and personnel. This is a one of a kind class and not to be missed from the firefighter rank to chief of the department, there are items here that will aid you in suppression, from application of water to buying equipment to considerations around operations, you will leave better off.

Featuring ULFSRI Attack Panel Members:

Dennis LeGear: Retired Captain, Oakland Fire Department, CA. Owner
LeGear Engineering Fire Department Consulting.

Tony Carroll: BC, District Columbia FD. Board Member of the ISFSI

Hosted at:

AIMS Windsor Campus

1120 Southgate Drive, Windsor, CO 80550

Special thank you to AIMS community college for supporting the Terry Fund and Colorado Firefighters.

Tickets-Includes Snack and Lunch!

Dennis LeGear & Tony Carroll ULFSRI "Study of the Impact of Fire Attack" \$75.00
