

# **RIGGING FOR RESCUE**

## **SEPTEMBER 5TH-9TH 2019**

### **An advanced 4 day rope workshop**

The course is focused primarily on rope work for the industrial setting, involving high angle and moderate slope. Litter lashing, safe anchor building, material weight ratings, pike n pivot and mechanical advantage systems is just a few things that will be taught. The course will be geared towards hands on with some classroom to build upon safe practices.

**Hosted by Eaton Fire  
Department**

**Limited space to 20  
students**

**Cost \$850**

**4 day workshop**
