Auto X West will primarily focus on light rescue extrication training. Hands-on sessions will include hand tools, stabilization, and hydraulic tools (battery and hose-driven). Instruction will include basic extrication techniques and stabilization. Evolutions will progress from basic scenarios to complex situations with multiple companies working together. Training emphasis will be placed on minimum manpower in a rural environment. Top instructors from around Colorado will be leading the training exercises. For any inquiries/questions, contact Bill Smith at bill.smith@crfr.us or (970) 629-2914.
