**PROUDLY PRESENT**  
**"GAS POWERED  
FORCIBLE ENTRY"**  
**FEB. 12, 2022**  
**FREE!**

Independent Fire Training is extremely proud to partner with our friends at Hygiene Fire to hold our inaugural class, "Gas Powered Forcible Entry". This training will focus entirely on forcible entry operations with a rotary saw. All experience levels are welcome to attend, from the brand-new recruit to the seasoned veteran. We promise everyone will walk away having learned something new and having had quality hands-on saw time. The full day will consist of a classroom portion in the morning and hands-on saw time the rest of the day!

Contact Assistant Chief Russ Benzel for more information @ 303-776-2950  
or [russ.benzel@hygienefire.org](mailto:russ.benzel@hygienefire.org)
