

EMERGENCY MEDICAL RESPONDER COURSE

Offered by Coal Creek Canyon Fire

When: March 22 – April 30 Plus May 7th for a field day (See Below for detailed schedule)

Where: All sessions at our Station 2: 32895 Hwy 72, Golden

Cost: Per Student: \$135 for the book plus \$150 per student to cover food

Coal Creek Canyon Fire will be conducting a National Registry approved Emergency Responder Course for our new recruits. The course will include 68 instructional hours with a mix of didactic and hands-on skills plus a mock incidents field day. While our instructional hours exceed the National Registry requirements, the additional hours are devoted to hands-on skills practice which is invaluable to the students. The course will have multiple instructors. The primary instructor is a Paramedic with more than 20 years of experience. Additional instructors include an ICU Nurse, Paramedic and EMT's to assist with skills practice.

CPR certification is included in the course. A National Registry Practical will be conducted and successful participants will have the option to sit for the National Registry cognitive exam. Food will be provided for each class session.

We have about three student slots available for other agencies.

To sign up, please contact Cathrine Brown, Coal Creek Canyon EMS officer: cathrine.brown@coalcreekcanyonfd.org

| | Date | Time | Module |
