School Bus Rescue - This class is for all 1st Responders who may respond to a school bus involved in a crash or rollover. Bus types, construction, features & hazards will be discussed, and many actual incidents will be reviewed with scene pics and video.

Gasoline Tanker Response - This class will address the various components & systems of the MC306/406 tanker trailer, the most common Haz-Mat transport tanker in the nation. Discussion items will include the chemical properties associated with the most common transported commodities and an overview of the tanker's various safety features as well as a review of various incidents and how to handle emergencies involving spills & fires.

Instructor: B/C Leigh Hollins (ret) – 45 year fire service veteran, 25 year Fire Dept Instructors Conference (FDIC) lead extrication instructor, Fire Engineering magazine and FDIC board member, producer of Fire Engineering's School Bus Extrication DVD.
