

# Blue Collar Rescue School

July 16<sup>th</sup> & 17<sup>th</sup>, 2022

0900-1800 hrs.

## Rescue School Topics:

### Heavy Extrication/Stabilization

This class is designed to deal with the complexities of commercial vehicle accidents and emphasis will be placed on separating the commercial vehicle from the passenger vehicles in order to expedite patient extrication.

This class is designed to encourage rescuers to establish an incident action plan, establish working relationships with tow operators, stabilize and prevent movement of the commercial vehicle in all directions, and utilize a 5-step process to separate the passenger vehicle from the commercial vehicle.
