

REGIONAL RAIL RESPONSE TRAINING

A Unified Coordinated Effort

Regional Rail Response training is designed to bring local and regional agencies together to better understand response efforts and roles should a derailment or incident occur.

ATTEND TRAINING.

GAIN EXPERTISE.

BE PREPARED.

Takeaways
from this
8-hour
session
include:

- An understanding of why preplanning is vital to an effective response.
- An understanding of the response disciplines and associated roles during a response to a rail incident.
- Knowledge about the industry and rail lines within your region, including the commodities that are transported.
- An understanding about the need for a coordinated effort when responding to an incident, and how to effectively manage available resources.
- Experience through a group exercise to reinforce the training concepts around a train derailment scenario.
- Course Certificate from the IAFC Academy for 8 hazardous material training contact hours.

The Assistance for Local Emergency Response Training (**ALERT**) grant provides hazardous materials training opportunities for first responders. The site information, dates, and times for each session is listed below.

Grand Junction Fire Department

625 Ute Avenue
Grand Junction, CO 81501

Thursday, 20 April 2023

Start Time 0830 hrs.
