

rescuexperience

October 27th and 28th 2017, Northglenn, CO

Holmatro Rescue Tools and Craig Fire & Safety, will be hosting a Rescue Experience at The North Metro Fire Training Center. The purpose of each one-day program is to provide the knowledge necessary to perform a rescue safely by establishing expectations for participants on how to perform job tasks. Class will begin at 8:00am and ends at 5:00pm each day.

Student registration is limited to no more than 2 members from any agency per day. Registration includes your participation, lunch, drinks, snacks and a copy of the NEW Holmatro Vehicle Extrication Techniques Training Book.

SCENARIOS

RIT

Learning Goal: Search for and locate patient in low visibility environment. Free patient by stabilizing/cutting/lifting using hand operated combi tool with awareness to CIS.

Car vs. Semi Side Underrun

Learning Goal: Capture suspension, stabilize and lift with hydraulic PowerShore, move vehicle out from underneath, remove doors and dash lift to remove patient.

Rapid vs. Controlled Patient Release

Stabilization, patient access and determination conditions for rapid vs controlled removal of the patient, vehicle disentanglement.

Progressive Lifting/Crush Injury Syndrome
