Rich Gasaway

Situational Awareness Matters

Richard B. Gasaway worked as a first responder in three public safety organizations including serving 22 years as a fire chief. After completing his distinguished 30-year career, Dr. Gasaway founded Situational Awareness Matters!, a consulting and teaching organization dedicated to improving how individuals, teams and organizations develop situational awareness as a foundation for improving workplace and personal safety. His company website (SAMatters.com) has been visited by more than four million people from 156 countries.

As a professional speaker and author, Dr. Gasaway has contributed to more than 400 books, book chapters and journal articles on topics related to leadership, safety, situational awareness and high consequence decision making. His bestselling books, *Situational Awareness Matters Volumes 1, 2 & 3*, *Situational Awareness for Emergency Response*, and *Fireground Command Decision Making*, serve as essential guides for helping individuals and teams develop and maintain situational awareness while making high-stress, high-consequence decisions

DATE / TIME: February 7, 2018

0900-1600

LOCATION: Colorado Mountain College Breckenridge

107 Denison Placer Road, Breckenridge, CO 80424

COST: No cost to Summit Fire Authority agencies

\$60.00 for all non-affiliated agencies

Invoices will be sent January 2018 to billing address

Payable by check or money order prior to class

Lunch provided to attendees

Registration must be received by January 12, 2018

Flawed Situational Awareness: The Stealth Killer of First Responders

This program shares the powerful findings of Dr. Gasaway's extensive research on issues related to first responder decision making and flawed situational awareness. In his review of hundreds of near-miss reports, case studies, line-of-duty death reports and videos he continually found himself being frustrated because there were so many clues, indicators and signs that the incident was going to end in disaster.

Yet, for some reason, personnel operating at the incident scene – from company officers to incident commanders – could not see it coming. Or if they did see it coming, they did nothing to alter their course.

In his research to understand why first responders were (seemingly) blind and deaf to what was happening right in front of them, Dr. Gasaway uncovered and investigated over one hundred barriers that can destroy situational awareness and flaw decision making.

This program focuses on some of the most pervasive situational awareness barriers first responders will face while operating in stress-filled, dynamically-changing environments.

- Barriers to be explored and discussed will include:
 - o Pre-arrival lens
 - o Mission Myopia
 - o Staffing issues
 - o Normalization of deviance
 - o Complacency
 - o Overconfidence
 - o Miscommunications
 - o Peer and supervisor pressure
 - o Overload
 - o Task fixation
 - o Task saturation
 - o Confabulation
 - o Mind shift
 - o Biases
 - o Human factors
 - o The curse of knowledge
 - o Technology
 - o Command location
 - o Command support
 - o Mission and goal
 - o Culture
 - o ... and more
