ALERRT Active Shooter Incident Management (ASIM) Training

3 Days

TEXAS STATE UNIVERSITY

ADVANCED LAW ENFORCEMENT RAPID RESPONSE TRAINING

The ALERRT Center at Texas State University is delivering the Active Shooter Incident Management (ASIM) course, a three-day comprehensive course providing responders with the experience and confidence to manage an Active Shooter Event, no matter where theyre assigned in the ICS structure.

This course is appropriate for all ranks and provides hands-on incident management experience (using 3D multi-responder simulation) to all responders. Students are trained on integrated and effective responses to the full range of Active Shooter and hostile event threats, including Complex Coordinated Attacks (CCAs).

Topics for the ASIM Course include:

The ASIM Checklist Process · Dispatch · Staging · Tactical ·Triage · Transport · Contact Team Deployment · Rescue Task Force (RTF) Integration · Establishing Casualty Collection Points (CCPs) · Victim Evacuation · Ambulance Exchange Points · Intelligence and Reunification · Complex Coordinated Attacks · Improvised Explosive Devices (IEDs) · Hostage/Barricade Events

Required Equipment:

Pen and paper

Dress:

This course is classroom-based and no special dress is required. Agency uniforms or training attire is appropriate.

Dates:	March 13 – 15, 2018
Location:	Douglas County Fairgrounds Event Center
	500 Fairgrounds Rd, Castle Rock, CO 80104
Registration Contact:	Corporal Jeremy Finkenbinder 720-474-6347
	jfinkenb@dcsheriff.net

There is no charge to officers or agencies for this training. It is funded through federal and state grants

Saving Lives
through **Integrated** Response

COURSE OVERVIEW

This course provides **responders with the experience and confidence** to manage an Active Shooter Event, no matter their rank or assignment.

Active Shooter Incident Management Advanced is a 3-day **comprehensive** course using the **ASIM Checklist** integrated response process with ten hands-on scenario exercises (using the multi-responder NIMSPro3™ 3D Simulation System). The course is appropriate for all ranks of law enforcement, fire, EMS, and dispatch. The course provides hands-on incident management experience for street responders and leaders alike. Participants are trained to integrate and manage a multi-discipline response to a full range of Active Shooter and hostile event threats, including Complex Coordinated Attack (CCA). The goal is simple — **decrease the time to neutralize the threat** and **get injured to a hospital**.

Participants **learn** and **practice** the following positions, functions, and scenarios:

- ASIM Checklist process
- First arriving LEO
- Contact Team
- Tactical Group Supervisor
- Staging Manager
- Casualty Collection Point
- Medical Branch

- Triage Group Supervisor
- Rescue Task Force (RTF)
- Transport Group Supervisor
- Ambulance Exchange Point
- Casualty (injured) Evacuation
- Law Enforcement Branch
- Intelligence/Investigative Section

- Victim Management and Reunification
- Incident Commander
- Communication Center Integration
- Complex Coordinated Attack (CCA) including multi-site and multiple attacker teams
- Active Shooter Event with IEDs
- Active Shooter Event with hostage/barricade

ASIMAdvanced Instructors utilize a no-fault, no-embarrassment coaching style to conduct live training with up to 55 students utilizing **NIMSPro3**™ for hands-on scenarios. **NIMSPro3**™ is our professional grade 3D multi-responder simulation system that places everyone in the middle of the action! Dispatchers utilize a fully integrated CAD system to direct responders who work to neutralize threats, triage casualties, implement warm zone EMS care, treat and transport patients, establish perimeters, move and manage victims, and much more — all within to-scale photo realistic 3D environments of selected real world locations!
