

Hazardous Materials Training Courses

Colorado Division of Fire Prevention & Control

2018

HAZMAT IQ: ABOVE THE LINE BELOW THE LINE

1 Day (Colorado Springs March 7, Southeast Weld June 29 Sable Altura July 28)

The HazMatIQ system incorporates trademarked innovative street smart “Cheat Sheets” that enable responders to safely and efficiently respond to any known or unknown chemical or mixture. Students taking this course will be able to size-up (physical state, hazards, initial hot zone, correct meters and PPE) any chemical in minutes. The system then coaches responders through a streamlined chemical research method to verify their initial size-up, preparing responders to immediately go to work when they arrive on a Hazardous Materials/WMD event.

PROPANE IQ

2 Day Class (Fountain April 16-17, Buena Vista May 24-25)

Propane emergencies remain one of the most common, and most deadly, hazmat incidents responders face. To date, over 25 responders have been killed at propane emergencies. This 16 hour course will prepare responders to safely mitigate a propane emergency, including tactical considerations, container assessment, leak control options, and flaring operations. Each student will receive a set of PropanelQ Smart Charts with a diagram of each propane vessel, along with potential countermeasures for each leak point. **BUNKER GEAR w/ SCBA REQUIRED FOR DAY 2**

Day 1: Propane Behavior and DOT Propane Cylinders

Day one is an 8 hour training day, and is 50% hands on. Classroom will include interactive lecture, PowerPoint presentation, video case studies, and tactical discussions. Practical will include propane behavior demo, DOT cylinder anatomy, and propane hardware/valve identification challenge

Day 2: ASME Propane Tanks and Flaring Operations

Day two is an 8 hour training day, and is 50% hands on. Classroom will include interactive lecture, Powerpoint presentation, video case studies, and tactical discussions. The practical session will include anatomy of ASME tanks, followed by practical skill stations for leak control and flaring. Flaring skill station will include accessing propane vessels, proper fl are set up, safety guidelines, and flaring liquid vs vapor.

HAZMAT IQ: TOX MEDIC

1 Day Class (Greeley March 14)

The HazMatIQ Tox-Medic© Course is a specialized EMS training program designed to give medics the knowledge and confidence required to provide advanced life support care including anti-dote administration, to patients suffering from a Hazmat/WMD exposure.

All Classes Start at 0800
