Department of Public Safety

### HAZARDOUS MATERIALS IQ COURSE

1 Day Class 08:00-17:00 - February 3

Berthoud Fire

275 Mountain Ave, Berthoud

The HazMatIQ system incorporates trademarked innovative street smart “Cheat Sheets” that enable responders to safely and efficiently respond to any known or unknown chemical or mixture. Students taking this course will be able to size-up (physical state, hazards, initial hot zone, correct meters and PPE) any chemical in minutes. The system then coaches responders through a streamlined chemical research method to verify their initial size-up, preparing responders to immediately go to work when they arrive on a Hazardous Materials/WMD event.
