

G0191: Emergency Operations Center/Incident Command System Interface

The goal of this professional development course, E/L/G 0191 Emergency Operations Center/Incident Command System Interface, is to enable the students to develop an effective interface between the Incident Command/Unified Command and the Emergency Operations Center by applying National Incident Management System principles.

Selection Criteria: The intended audience(s) are federal, state, tribal, territorial, local level, private industry, volunteer, and nongovernmental emergency management personnel who are active in a community's ICS and EOC activities. This course works best when delivered to a combined audience of ICS and EOC personnel. The materials were developed with the assumption that audience members may have little or no actual experience as a member of an Incident Command Post staff or an EOC Staff.
