

Equine Workshop for First Responders

Join Colorado Horse Rescue in collaboration with Boulder Office of Emergency Management for a day of skill building around large animal evacuations. During this hands-on workshop you'll gain knowledge around equine behavior, handling, and trailering that can be used during response. You'll then be able to further develop your skills through practical application under the guidance of Colorado Horse Rescue staff.

Please dress in sturdy, closed toed shoes, and clothes you will be comfortable moving and handling horses in.

2023 Equine Workshop for First Responders

Friday, June 23rd, 9am - 1pm
